

## WEBINAR “EXCELLENCE IN UPSKILLING AND RE-SKILLING: DIGITAL PEDAGOGIES AS THE *NEW NORMAL*”

**26 JUNE 2023**

The webinar, jointly organised by the ETF Network of Excellence (ENE) and by the International Council of Open and Distance Education (ICDE), aims at discussing with members of both networks, as well as with other interested participants, how education and training organisations can implement their “*digital transition*” with the aim of upskilling and reskilling learners and workers. In particular, the event aims at identifying strategies and initiatives that organisations can put in place to reach a *new normal* where digital education is fully embedded in their educational offer in an inclusive and sustainable way.

During the webinar, following a presentation of the ENE and ICDE networks, three cases of sustainable and effective inclusion of digital education as “new normal” will be presented and discussed, providing ideas on how organisations working on upskilling and reskilling can advance in their digital transition.

The webinar will count with interpretation in Russian and Arabic.

### AGENDA

Time	Activities	Speakers
14:00 – 14:05	<i>Introduction and objectives of the webinar</i>	Filippo Del Ninno, ETF
14.05 – 14:20	<i>Presentation of the ETF Network for Excellence</i> <i>Presentation of the International Council for Open and Distance Education</i>	Manuel Galvin, ETF Torunn Gjelsvik, ICDE
